If you already subscribe, please send the mailing label from the journal. Otherwise, include full information including name and address, subscription status, and the title of the journal.

# GRADUATE STUDIES IN LANDSCAPE ARCHITECTURE AT THE UNIVERSITY OF WISCONSIN—MADISON

## BACKGROUND

The Department of Landscape Architecture is located on the campus of the University of Wisconsin—Madison. The graduate student in Landscape Architecture has access to a wide range of facilities and scholars from nearly every discipline, reflecting the University of Wisconsin—Madison's worldwide reputation for educational quality.

Some 3700 courses are offered by more than 125 departments located on the Madison campus. Students may take advantage of campus libraries, containing more than 3.3 million volumes; the resources of the State Historical Society of Wisconsin; the facilities of the Madison Area Computer Center with its unique computing facilities specially designed for problems in landscape planning, design, and management; the outdoor laboratory of the University Arboretum; the collections of the Elvehjem Museum of Art; and the resources of Wisconsin State Government.

The UW-Madison is in central Madison, Wisconsin's capital city, and overlooks Lake Mendota. Opportunities abound, both organized and informal, for outdoor recreational activities as well as numerous cultural events offered by the University of Wisconsin—Madison.

## FOCUS AREAS

The graduate program in Landscape Architecture is based on the premise that research and teaching at the graduate level should generate and synthesize new information for the purpose of raising the level of performance in landscape planning, management, and design. To do so, the graduate program in Landscape Architecture is organized into six research and teaching focus areas. These areas are as follows:

- *Cultural Resource Preservation and Landscape History*
- *Plant Community Assessment, Management, and Restoration*
- *Land Information Policies, Uses, and Management*
- *Human Perception and Behavior in the Landscape*
- *Design and Planning Processes*
- *Emerging and Exploratory Issues*

## FACULTY AND STAFF

One of the unique features of the UW-Madison Department of Landscape Architecture is the varied disciplinary background of the faculty and staff. The faculty represent a wide range of disciplines in the design professions, social sciences, biological sciences, and humanities. In addition, many students and faculty work with persons in other University departments, thereby ensuring a high level of contact and working relationships with many research areas and disciplines.

# Books from Wisconsin

## **THE PRAIRIE GARDEN** **70 Native Plants You Can Grow in Town** **or Country**

**J. Robert Smith with Beatrice S. Smith.** A complete guide for the professional and amateur, including color photographs and line drawings of all 70 plants. "If you are interested in establishing a meadow or prairie garden, this book is an excellent place to begin your research."  
—*American Horticulturist*  
**232 pages, illus. 1980. Cloth \$22.50; paper \$9.95.**

## **THE FOOL HEN** **The Spruce Grouse on the Yellow Dog Plains**

**William L. Robinson.** "Scholarly, lively and humane, this is the first monograph devoted to the tame but frequently elusive Spruce Grouse."—*American Birds*. "Robinson is a gifted writer who manages with apparent ease to bridge the gap between scientific and popular style."—*Journal of Wildlife Management*  
**224 pages, color illus. 1980. Cloth \$18.50.**

## **THE LEGUMINOSAE** **A Source Book of Characteristics, Uses,** **and Nodulation**

**O. N. Allen and Ethel K. Allen.** This encyclopedic global survey of leguminous root nodulation, the result of 45 years of research, is the only one of its kind, a massive effort incorporating all of the 750 known genera of Leguminosae, which include nearly 20,000 species. Truly a magnificent achievement.  
**880 pages, illus. 1981. Cloth \$60.00.**

## **OUR NATIONAL PARKS**

**John Muir.** A guidebook supreme, an exciting introduction to Yosemite and several other magnificent parks by the man who, more than any other person, helped to create them. Originally published in 1901 and long out of print, Wisconsin has now made another Muir classic available in a popular paperback edition.  
**416 pages, illus. 1981. Cloth \$25.00; paper \$6.95.**

AND GROWING STRONGER.

# *Spaces: Dimensions of the Human Landscape*

Text and photographs by Barrie B. Greenbie

***A visually engaging study by landscape architect Barrie Greenbie of how the manmade environment affects human behavior.***

"In his richly, magnificently and intelligently illustrated book, Barrie Greenbie demonstrates that the human qualities of the environments in which we live depend less on the architectural splendor of the buildings than on the skill with which they are articulated with the outdoor space in which they are placed. Both the text and the illustrations help us to experience more intensely the dimensions of the human landscape."—René Dubos 714 illus. paper \$14.95 cloth \$47.50

## **SCHOOL OF LANDSCAPE ARCHITECTURE GRADUATE PROGRAMS**

The Master of Landscape Architecture program at Louisiana State University provides preparation for a professional career in landscape architecture.

The program is directed towards advanced study and specialization in design and research. Study tracks are offered for either a first professional degree or study beyond the accredited program degree.

L.S.U. is the center of academic research and advanced studies in Louisiana. The MLA program at Louisiana State University has been selected for The Southern Academic Common Market offering students from five southern states resident tuition. L.S.U. is located in the heart of Louisiana's rich historical, cultural, and natural landscape. Study opportunities are available to accommodate a range of individual student interests.

Assistantships and other financial aid are available to qualified applicants.
