| 69 | | Book Reviews |

Landscape Journal is dedicated to the dissemination of the results of academic research and scholarly investigation of interest to practitioners, academicians, and students of landscape architecture.

Cover: To many observers the garden city of Tapiola, Finland, represents a unique blending of landscape, architecture, and social concern. For additional background on Tapiola, see the interview with Heikki von Hertzen, the primary force behind the community's development (p. 40). Photograph taken in June 1982 by Pekka Mölsä (Helsinki, Finland).

Below: In addition to landscape, community planning, and architectural concerns, considerable attention in Tapiola was given to design details such as paving materials and street furniture. See the interview with Heikki von Hertzen on page 40. Photograph taken in June 1982 by Pekka Mölsä (Helsinki, Finland).

Volume Two, Number One

Spring 1983
