

**Landscape Architecture  
Austin E. Knowlton School of Architecture  
The Ohio State University**

**Position: Associate / Full Professor in Landscape Architecture**

The Landscape Architecture Section of the Knowlton School at The Ohio State University is seeking candidates for a 9-month appointment at Associate or Full Professor level. Candidates should have achieved a significant contribution to the field of landscape architecture, academically and/or professionally, and have received national and international recognition. In addition to teaching and carrying out scholarly or design research, applicants will assist in shaping the landscape architecture curricula, mentor junior faculty, and develop the presence of landscape architecture at the levels of School, College, University, and beyond. The appointed candidate will continue to expand his/her research agenda and help direct the strategic vision of the landscape architecture programs with the newly appointed Section Head.

This position offers a unique opportunity to shape landscape architecture education in a vibrant academic environment with a long history. The Landscape Architecture Section being housed in the Knowlton School with Architecture and City and Regional Planning as well as in the College of Engineering, it is important that its faculty pursue collaborations across disciplines. The University's strategic themes for development—energy and the environment, food production and security, health and wellness—offer clear avenues and support for landscape architecture research. Our location in a thriving urban region provides a living laboratory for urban/suburban/rural dynamics.

The Landscape Architecture Section at The Ohio State University includes accredited BSLA and MLA programs. Situated on the Columbus campus in the state-of-the-art Knowlton Hall designed by Scogin Elam with four gardens by Michael Van Valkenburgh Associates, the programs enjoy a truly unique teaching and learning environment. The School and Section are complemented by the expanse of Ohio State University's research resources, including the Wexner Center for the Arts, the Advanced Center for Computing and Design, the Center for Urban and Regional Analysis, the Center for International Poverty Solutions and the Kirwan Institute for Race and Ethnicity. The strong regional base of the Knowlton School is complemented by a broad global agenda, evidenced by international programs and initiatives throughout the curriculum and faculty research. In addition, the Glimcher Distinguished Visiting Professorship, the Trott Visiting Professorship and outstanding lecture and exhibition series augment the intellectual breadth of the Landscape Architecture Section.

Applicants must hold a Master's degree in Landscape Architecture or a first professional degree in Landscape Architecture and a Master's degree in a related field such as Architecture or Urban Design. Strong consideration will be given to candidates with a doctoral degree.

Applications should include a letter of interest, curriculum vitae, portfolio of scholarly and/or design research, and the names and contact information of three references. Review of submissions will begin October 15, 2013 and will continue until the position is filled.

Materials should be sent in both print and pdf formats to:

# Ethics the Environment

*conceptual approaches to  
ethical theory and ecological  
philosophy*

EDITED BY VICTORIA DAVION

*Ethics & the Environment* is an interdisciplinary forum for theoretical and practical articles, discussions, reviews, and book reviews in the broad area encompassed by environmental ethics. Topics include conceptual approaches to ethical theory and ecological philosophy, such as deep ecology and ecological feminism as they pertain to such issues as environmental education and management, ecological economies, and ecosystem health.

*Studies in the History of Gardens & Designed Landscapes* addresses itself to readers with a serious interest in the subject, and is now established as the main place in which to publish scholarly work on all aspects of garden history.

The journal's main emphasis is on detailed and documentary analysis of specific sites in all parts of the world, with focus on both design and reception. The journal is also specifically interested in garden and landscape history as part of wider contexts such as social and cultural history and geography, aesthetics, technology, (most obviously horticulture), presentation and conservation.

The journal welcomes submissions from art historians, architectural historians and landscape architects worldwide.

## CELA Members: Need Help Accessing *Landscape Journal* Online?

If you're a faculty member having trouble accessing *Landscape Journal* online, we can help. Online access provides many benefits, including searchable content and access to all back issues.

- If a program's university library system subscribes to *Landscape Journal*, faculty members should be able to access and view all content online through their university's library website catalog. If you are a faculty member and your university subscribes to the journal, contact your librarian with access difficulties. Access is not available for faculty whose libraries are not subscribers.
- If you are a CELA member, you are entitled to online access as part of your membership. Please contact us with the name and address of who was the recipient of the order (for example, University of Wisconsin–Madison, 1450 Linden Drive), so we can verify with the master list of end-users. Email [journals@uwpress.wisc.edu](mailto:journals@uwpress.wisc.edu), or call (608) 263-0668.

After you've determined which situation applies to you, you can go to [lj.uwpress.org](http://lj.uwpress.org), and read current and back issues to your heart's content.

### Online access at <http://lj.uwpress.org> allows you to:

- > Search across titles, tables of contents, abstracts, full text, figures, and journals
- > View most read papers list & most-cited papers list
- > View tables of contents and abstracts
- > View FREE sample issue
- > Email article information to a friend and sign-up for email alerts
- > Subscribe to the journal
- > View entire back content (with subscription)
