- 41 Book Reviews
-

Landscape Journal is dedicated to the dissemination of the results of academic research and scholarly investigation of interest to practitioners, academicians, and students of landscape architecture.

Cover: A well managed forest within a German nature park. Silvicultural treatment of this forest is dictated by multiple use to assure simultaneous timber production, environmental, recreational, and aesthetic benefits. Mixed, site-sensitive forestry types similar to this one seem to best suit the multiple needs of a modern, highly populated country. See Schabel and Dwyer, "Institutional Aspects of Forest Recreation Resource Management in West Germany," page 1. Photograph courtesy of E. Hockenjos.

Volume Four, Number One

Spring 1985
